316 Swierkos Drive

Moundsville, WV 26041

Maneuvering Lane is used for Campsites

#: 1, 3, 4, 5, 6, 7, 8, 9, 13, 14, 15.

Nose down to corner for Campsites

#: 2, 10, 11, 12.

WARNING: Avoid Catch Basin Drain by #6 when backing and turning trailers.

Water Pits

WARNING: Please be sure to connect and use a **Water Pressure Regulator**.

This should be used BEFORE your hose directly off of the campground's water line to also protect the hose itself from higher than normal service supply pressures.

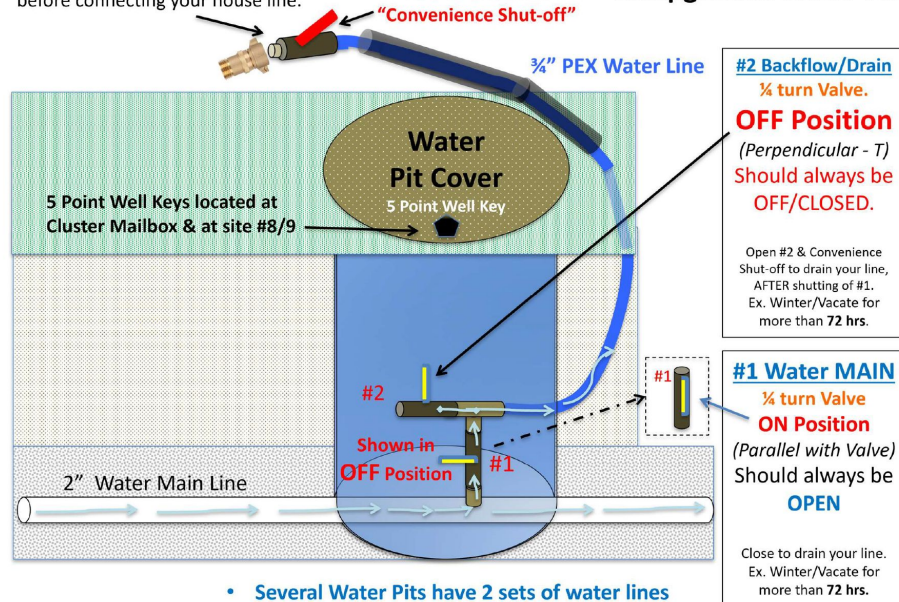

Supplied Pressures are estimated to be **125 psi +/-**.

Most pits will also have a convenience shutoff valve right where you will connect your hose. **In the winter time, the lower pit valves will also be turned off.**

Use **Water Pressure Regulator** here, before connecting your house line.

Sewer Waste & Lines

Please be sure to slope and grade all sewer line runs so that sewage is not standing in the lines.

This will help to alleviate sewage smells for those around you.

Please do not put sewer hose directly down into the campground 4" riser. It WILL promote to backing up the upper grade sewer lines.

USE A 4-in-1 adapter to hook to the 4" riser Pipe.

Power Hook-up

It is ALWAYS advisable to use an inline power surge protector to best help protect from any surges from the utility company's service lines.

PLEASE HAVE A **BACKUP PLAN** IN THE CASE OF A POWER, WATER, SEWAGE, OR OTHER UTILITY OUTAGE

Please have backup and alternate plans
for persons, **animals**, campers, and items such as **food**
in the event of a service disruption.
